## August 2016 Newsletter

After serving on the NFAS Committee for a number of years and also taking on the role of Chairman Barry Jay has decided to step down. On behalf of members and the Committee we would like to thank Barry for all his work and advice given to the Committee and NFAS.

Our July meeting included a demonstration with Max Hale, an artist living in Wiltshire. He very kindly stepped in at very short notice due to Roy Lang's ill health. Max used water mixable oils on board, explaining every thought and process as he painted. Working quickly he soon produced a 'painterly' harbour scene of Boscastle in Cornwall.

He then judged some of the member's work and selected Brenda Molyneux 's painting as his preferred choice.
